## VGS™ Field Terminable CAT6 UTP Plug
Item Number: MPG601
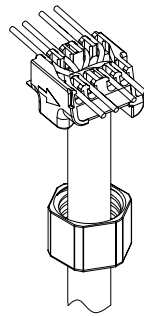

INSTALLATION INSTRUCTIONS

STEP 1:

15mm min.

Put cable through the Nut. (OD: 4~6mm; 23~26 AWG) Strip the cable for minimum 15mm.

STEP 2:

Insert the wires into the cap through the holes.

STEP 3:

Lay the wires to the correct positions based on the color code. (T568A/T568B)
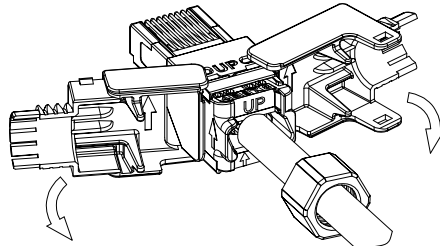

STEP 4:

0.5mm Max.

Cut the excess wires off. The tips of the wires should protrude no more than 0.5mm.
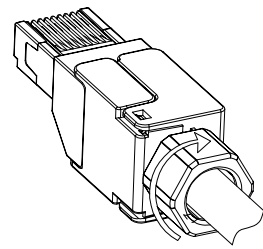

STEP 5:

UP

Put the cap on the IDC tower. The arrows on the jack and the cap should face the same direction. Put the cap into position.

STEP 6:

UP

Close the jaws until hearing the click.

STEP 7:

Screw down the nut

DISASSEMBLY INSTRUCTIONS

STEP 1:

Unscrew the nut.

STEP 2:

Insert the slotted screwdriver into the slot and rotate to open the jaws
