

Category 6A RJ45 Clear Connectors

**Applications**

These Category 6A RJ45 connectors are used for crimping and terminating 10GBASE-T Ethernet Cables. This plug is suitable for use with unshielded Category 6A cable.

**Description / Specifications**

These RJ45 unshielded connectors are composed of a polycarbonate material body, with gold plated contacts, and are suitable for use with Category 6A 22 - 26 AWG solid and stranded conductors. These connectors are available in a bag of 50.

Pair with our Modular Plug Crimping Tool (*Item # WTRJC-03632*) for professional, consistent and repeatable terminations.

**Features & Benefits**

- Suitable for CAT6A unshielded installations
- Terminates 22-26 AWG stranded or solid conductors
- High-impact clear polycarbonate plugs
- 50u" gold plated contacts
- Packaging: Bag of 50

**Construction**

**Body Material:** Polycarbonate  
**Contact Material:** Gold Plated Brass

**Mechanical**

**Wire Compatibility:** 22 - 26 AWG Solid or Stranded  
**Insulation Resistance:** Min 1000 megaohms  
**Standing Voltage:** 1000V AC/ minute  
**Mating Life Cycle:** Min 1000 cycles
